Hunting/Trapping on Ausable Bayfield Conservation Authority Property Waiver

Thank you for your interest in conservation and purchase of a yearly pass to conservation authority property. The Ausable Bayfield Conservation Authority (ABCA), no longer receives provincial grants to manage its properties. Your Conservation Pass fee is necessary to generate funds so that these lands can continue to be made available to the public for specific authorized activities.

The ABCA has authorized hunting as a permitted activity with the purchase of a pass and proof of \$2 million public liability insurance. A map outlines the conservation properties on which hunting is permitted **and those properties on which hunting is not permitted.** The granting of permission for you to hunt on conservation property includes the following conditions.

1. That you accept all responsibility for your actions on conservation lands.
2. That you will not hold the Conservation Authority liable in the event of an accident from any cause.
3. That you will comply with all hunting regulations made by the Province of Ontario, or any local authority.
4. That you will not destroy or damage any trees, trails or buildings on the property.
5. **That temporary tree stands are permitted, but these stands shall not be attached to trees by any method that penetrates the tree. Stands will be removed that are not in compliance.**
6. That by signing a copy of this letter you acknowledge your understanding of the conditions and your commitment to follow these conditions.
7. Member in good standing of O.F.A.H.
